Home • RéVive

RéVive™ is the only high performance, luxury skincare line developed by Dr. Gregory Bays Brown, a plastic and reconstructive surgeon. Inspired by patented and Nobel Prize winning science, RéVive™ products feature Bio Renewal Technology, a collection of special bio-engineered skin-identical proteins that mimic your own bio-renewal process to help skin to behave at a more youthful rate. Dr. Brown discovered that to restore skin's youthful glow - change the way your skin behaves.

*thank you
for 19 years!*

to celebrate, we've curated this
25-piece deluxe gift for you
with your \$150+ purchase
